Jamill Francis G. Ardines

Tambis Steet, Cebu City, 6000 Cebu, Philippines jamardines16@gmail.com 09288759208

Education

University of Cebu Cebu City, Cebu
Bachelor of Science in Computer Science
Deans Lister
Top 4 UI/UX Design CCS Days March 3, 2026

Experience

Computing Society of The Philippines Students(UI/UX Designer) August 2023 – Present

- Designed and developed the organization's new website, focusing on intuitive UI/UX
- Created responsive layouts and interactive features for better usability
- Collaborated with team members to maintain website content

Projects

AlgoSensei: AI DSA Mentor Present
Full-Stack Developer

- Developing an AI-powered tool that recommends the most efficient algorithms and data structures for problem statements
- Implementing interactive visualizations and explanations to aid learning for students, teachers, and developers
- Designing a user-friendly interface and workflow to make algorithm exploration intuitive and educational
- Enabling side-by-side comparisons of algorithms with complexity analysis and example code
- Collecting user feedback to iteratively improve algorithm suggestion accuracy and system usability
- https://github.com/Algo-Sensei

Paninda August - December 2025
Frontend Developer

- Designed and developed the mobile application frontend, focusing on intuitive UI and smooth user experience
- Created responsive layouts and user-friendly interfaces using Kotlin in Android Studio
- Collaborated with backend developers to integrate APIs for real-time product and sales data display
- Contributed to debugging and refining UI performance for a seamless user experience
- Refined and improved the user interface through iterative updates, currently implementing UI Version 2 (enhanced design and user experience)
